WORK EXPERIENCE

Product Manager

Pixelfield / Prague, Czechia

2025 - current

- Delivered up to 14 short-term projects in parallel, on time, across mobile, web, VR and e-commerce while balancing the everyday challenges of agency life.
- Managed end-to-end project delivery using **PRINCE2-Agile framework**, combining client-facing governance, scope control, and stage sign-offs with agile sprint cycles.
- Worked closely with first-time founders to **translate early-stage startup ideas into clearly defined product initiatives**, epics, and development-ready user stories.
- Led the full product lifecycle from discovery and PRD preparation through design, development, and launch across a **wide range of digital B2C products** including mobile and web apps, VR, games, digital e-stores, and landing pages.

Product Manager

Green0meter / Prague, Czechia

2024 - 2025

- As the right hand of a product-driven founder, owned the **end-to-end product development lifecycle for Green0meter's B2B SaaS platform**, driving feature development aligned with both short-term usability and long-term product vision.
- **Collected and analysed user feedback** using analytical tools to improve UI and UX, and collaborated with a designer to structure independent features into intuitive, end-to-end user journeys.
- Led and executed 3rd party integration projects and managed stakeholders on all levels.
- **Helped establish Agile practices** within the development team, increasing team velocity through improved planning, prioritisation, and backlog grooming.
- Conducted **hands-on UAT and regression testing**, creating a strong feedback loop with developers.
- Created **product documentation** and integrated it into Intercom Help Center. This **reduced consultant support requests by 50%**.

Speakers & Agenda Manager

TechChill / Riga, Latvia

2022 - 2023

- Alongside a full-time role at SEB, curated a program of 130+ speakers for a two-day startup conference in 2023 in Riga, Latvia and in Milan, Italy.

Agile Product Owner

SEB Bank / Riga, Latvia

2020 - 2022

- Managed stakeholders across marketing, sales and other product areas.
- Held a development backlog for a cross-country team of 7 web editors and front-end developers.
- Led the development of a **Drupal-based CMS for three Baltic countries**, collaborating with internal and external designers, UX, developers, and marketing teams.
- **Hired and trained 20+ temporary interns** to migrate content from the old CMS to the new platform.
- **Led product strategy** and UX-focused roadmap for a cross-country MS SharePoint-based document management system and intranet platform.

Web Editor

SEB Bank / Riga, Latvia

2019 - 2020

- Managed SEB bank public website by creating new web content as well as amending the existing one using HTML & CSS
- Worked on **simple JS applications** to improve UX
